

## 99s: Women Pilots of Eastern New England

### **Speaker(s) Needed!** **Penguin Hall in Wenham** **Friday, March 8**

*We have received a short notice request for a **Career Day speaker** for this Friday 3/8 at The Academy at Penguin Hall in Wenham, MA. This is a beautiful all girls college prep high school. It would be a wonderful opportunity to showcase aviation as a career.*

*You would be joining Victoria Rolff. She had a distinguished career as an air traffic controller; she is interested in getting more young women involved in aviation as a career and help position them to succeed. In some ways, it is just more about inspiring a new generation of young women to explore aviation.*

*The sessions will be informal and mostly give the chance for students to ask questions. While Victoria will be speaking from her extensive experience in air traffic control, she was hoping to include a pilot's perspective as well. It will take place in three separate sessions, each 45 minutes.*

*If you are interested, please reach out to Jessie, [jessie.zuberek@gmail.com](mailto:jessie.zuberek@gmail.com)*

**Tailwinds!**

**Beth Young**  
**Chair, ENE**
